

President's Letter

Dear Colleagues, Dear Friends,

It is a great honor and privilege to address you as President of the Liver Intensive Care Group of Europe (LICAGE). Our society brings together all professionals dedicated to the care of critically ill liver patients and those undergoing liver transplantation—
anesthesiologists, intensivists, hepatologists, surgeons, perfusionists, and allied specialists.

As we look forward, our mission remains anchored in three essential pillars:

1. Excellence in Clinical Care

LICAGE continues to promote best practices in perioperative and intensive care management for liver patients. By sharing expertise and strengthening collaboration, we aim to support clinicians across Europe in delivering the highest standard of care.

2. Innovation and Scientific Advancement

Emerging technologies—machine perfusion, advanced monitoring, AI-driven decision-support systems, and evolving immunomodulatory strategies—are reshaping our field. LICAGE is committed to fostering scientific exchange and integrating innovation into daily practice.

3. Education and Community

Education remains at the heart of our mission. Through congresses, workshops, webinars, and partnerships with leading societies, LICAGE aims to empower the next generation of specialists and strengthen our professional community.

Thank you for your dedication, your trust, and your commitment to improving the care of liver patients.

With warmest regards,

Prof. Dana Tomescu

President, Liver Intensive Care Group of Europe (LICAGE)
